Left testicle for dirtbike!!! - \$10000 (Minerva)

16 year old left possibly right testicle for sale..

I'm 16 working a full time job and its just not enough to get me a new bike so I'm deciding to sell one of my testicles..

Really would rather sell the left instead of the right but whatever floats your boat!

As far as I know they both work great and the doctor says I'm perfectly healthy..

I've heard you can sell them for \$35k so to buy one in great shape for \$10k you're definitely getting a deal..

This is not prostitution!!!!

Could be used like if yours don't work or you need a science experiment idk..

Would rather not send pics?!?

I will consider trades for a Yz , Cr , ktm , kx , rm , 125 , 250, or even a 450 must be a 2014 or newer.

This is a serious post and I don't have time for jokes or games so don't come and bust my balls trying to trade for an Xbox or shoes.

\$10,000 obo

NO LOW BALLS!!!

Call or text anytime, will give you more details if you are using for making kids or something
